

SMART ACRYLIC EPOXY COATING

TECHNICAL INFORMATION SHEET

Smart Epoxy Coating is designed to seal & protect hard surfaces from graffiti attack. A permanent coating with a hard wearing gloss finish.

RECOMMENDED FOR USE ON: Vinyl, Plastic, Metal, Timber, Painted or Unpainted Brick & Concrete Surfaces etc.

This product comes in Part A 3.2 Litres & Part B 800 ml giving 4 Litres & is a 4-1 mixture. One Litre will cover 8 - 10 square metres subject to the surface being applied. A two (2) coat application is required allowing 8 hours drying time between each coating.

FOR PROFESSIONAL USE ONLY. NOT TO BE USED FOR ANY OTHER PURPOSE. NOT FOR RESALE. DO NOT MIX THIS PRODUCT WITH ANY OTHER. TRIAL ON A SMALL INCONSPICUOUS AREA FOR RESULT PRIOR TO FULL APPLICATION.

PREPARATION: Make sure all painted surfaces are clean & free of any contamination. Unpainted brick surfaces to be washed & allowed to dry completely before application of this product to ensure any remnants of surfactants, lime, graffiti removal chemicals or other contaminants which will effect the adherence of the acrylic epoxy coating to the brick or concrete surface.

Taking Part B & mix to Part A, Paddle (stir) for 5 minutes, allow to dwell for 2 minutes, then paddle (stir) again. Once mixed you have a pot life of 2 hours Example: If you require 1 Litre, you pour out 800 ml of Part A & 200 ml of Part B (4-1 mix)

IT IS IMPORTANT TO SEAL THE LID IMMEDIATELY ON PART B FOR LONGEVITY AFTER MIXING

Apply the product by brush or roller. Smart Epoxy Coating goes on WHITE & dries to a full gloss clear surface. On the first coat, you may add 10% water for easier application.

Wash up / out or clean all brushes, rollers & trays in water. It is recommended that new rollers are used on each new job.

Every user of this product should wear safety goggles, chemical resistant gloves & carefully read all application & safety instructions before using.

Spread Rate- Average 8 - 10 Square Metres per Litre
